

Pastor David Wilkerson – Prophecy given in 1994 – Greece Connection?

Dear Doves,

Here is part of Pastor David Wilerson's Prophecy:

<http://www.ubm1.org/?page=wilkerson>

(David's notes in red)

One of our UBM brothers was in the audience and recorded this prophecy.

Key points to remember about this vision:

1. From the time the first country goes down, you'll have two weeks to get your money out of the bank.
2. America will come through this crisis---there will be a restoration.
3. But the nation will never be like it was before...
4. God is saying: Get our lives straight...Get rid of the idols...Seek the face of God in holiness...
5. God will be a wall of fire about you...And the glory in the midst of you!

It's about to happen---very soon, one nation, and I'm speaking prophetically--if I've ever heard anything from God in my life, I heard it. Very soon a European or North African or Eastern nation is going to default on its international loan and when that happens, within two weeks, Mexico is going to default. (Mexico owes \$100 billion -- 80% of it to American banks. This was true at the time of this prophecy but [Mexico's debt](#) now stands at \$500 billion; I am not sure how much of it is held by US banks.) -- and here's what is going to happen: about two weeks after the first country goes bankrupt, (we're going to survive that, because most of that (money of the first country) is owed to European banks---German, Swiss and French banks) but a second country is going to go down, probably Argentina or Brazil, and we'll kind of live that down and say: "Well, maybe it's not going to hurt," but two weeks after the first country goes down, Mexico's going to default on \$100 billion (much more now).

And when the banks open the next day at 9 in the morning, \$15 billion an hour is going to be withdrawn from our American banks -they're going to be running our banks---the Arabs---all the Latin American countries, they're going to be running our banks--and before the day is over, the USA is going to have to declare a "bank holiday."

And we're going into six months of the worst hell America has ever seen -- there's going to be chaos -- not even the National Guard's going to be able to quiet it down -- we're going to have to call out the whole U.S. Army. (Notice: the US military is called out for the crash, just as Jade Helm is across the whole Southern border with Mexico now. When Mexico defaults, there would be an invasion of the US, many not understanding that its economy would be next to crumble.)

... Now I'm going to give you a word of advice: the first country goes bankrupt -- I've documented this and I've got it sealed in an envelope, and I'm going to call all my friends and I'm telling you -- this is the first time I've said it in a public meeting like this -- but the first country that bellies up, you go get every dime you have -- church, get your money out of the bank -because there's going to be a 'bank holiday' and you won't be able to get a dime for six months.

In the full version of David Wilkerson's prophecy above, Pastor Lindsey Williams was given the same thing by the *Elite* in 2009: *Europe will be the first to default and have its economies crash. The US will follow suit right after, along with other countries.* Lindsey even gave a timetable of two weeks before it affects the US and to prepare for this event.)

So let's just speculate that Greece is officially kicked out of the European Union due to default on its loans by Friday July 3rd, so there is only one day left before all markets close for the weekend. This gives the powers that be the weekend to attempt to analyze how the markets will react, thus making adjustments for the next week where Argentina or Brazil is brought down and then during the second week Mexico declares a default on Friday, July 17th, two weeks after Greece. By Monday, July 20th, an electronic bank run ensues on American banks,just like happened on 9/11/08.

July 20th just happens to be five days after the Jade Helm kickoff which seems very convenient, being that this exercise just happens to encompass every state bordering Mexico, including all states bordering the Gulf of Mexico.

Then there's the biker shootout that left nine dead that just happens to be a scheduled event. **While this is speculation at this point, China is preparing for this fall as well.**
