

Creation to Cremation – Coronavirus Disease 2019 (COVID-19)

Three Plagues in One Virus

The current worldwide plague, or in modern terms, pandemic, is known as the “Coronavirus Disease 2019” (COVID-19). The first case in humans was diagnosed in December 2019. The virus itself was first named “Novel Coronavirus 2019” (2019-nCoV) and then renamed “Severe Acute Respiratory Syndrome Coronavirus 2” (SARS-CoV-2). When the genetic material of this virus was analyzed and compared with two other coronaviruses which have caused pandemics in the last two decades, this virus was found to share ~79% of its genetic sequence with the “Severe Acute Respiratory Syndrome” (SARS) virus and ~50% with the “Middle East Respiratory Syndrome” (MERS) virus.

[https://www.thelancet.com/journals/laninf/article/PIIS1473-3099\(20\)30134-1/fulltext#back-bib2](https://www.thelancet.com/journals/laninf/article/PIIS1473-3099(20)30134-1/fulltext#back-bib2)

A paper published by the Indian Institutes of Technology on the Biorxiv preprint server found an “uncanny similarity” between the virus that causes COVID-19 and the “Human Immunodeficiency Virus” (HIV) which caused the worldwide pandemic first named “Gay Related Immune Deficiency Syndrome (GRIDS) and then renamed “Acquired Immune Deficiency Syndrome (AIDS). This paper found four insertions in the spike glycoprotein of COVID-19 where the virus binds to the host cell which are not present in other coronaviruses but appear identical to key structural proteins of HIV-1. They stated this “is unlikely to be fortuitous in nature.”

For reference, the first known case of AIDS has been traced back to 1959, contracted by a man in the Congo.

This would make COVID-19 the “holy grail” sought for so long by gay activists the last several decades. This could finally bring the consequences of AIDS to heterosexuals on a worldwide scale. Only then would heterosexuals empathize and devote the attention and resources needed to finding a cure for this pandemic which has so devastated the homosexual community.

The problem with the COVID-19 RNA genetic code being identified as containing HIV genetic code along with SARS and MERS, is that it would appear that someone or some organization took three of the worst pandemic viruses of the last 60 years and combined them into one supervirus bioweapon. While it is possible that these three pandemic viruses in nature simultaneously invaded a human cell where their RNA genetic material mixed and were spliced together producing a chimera spontaneously, the odds seem beyond imagination. It seems much more plausible that this COVID-19 virus was man made and being studied at the Wuhan Institute of Virology (WIV). It was then accidentally released into the population at ground zero, a now razed seafood market around the corner from the WIV.

The Chinese have claimed they did not create this virus. It has been reported that it was taken by a Chinese researcher from a laboratory in Canada. Furthermore, it has been reported the Chinese have blamed its creation on the United States Military.

No one wants to step up apparently and claim they created this virus. Since then many have died in China and many bodies have been cremated. While the Chinese body count has been

said to be grossly underreported, there have been other reports that crematoriums have been running full capacity with higher levels of sulfur in the air from the burning of human flesh. From creation to cremation.

There are those convinced COVID-19 was developed by the Obama administration as a military bioweapon. There are others who make a case it was developed by the Obama administration but as a solution to the projected bankruptcy of Social Security. Early reports from China showed much higher deaths among the elderly as if COVID-19 was targeting them. It seemed as if children were almost immune. It was theorized that the adults more developed immune response system was flooding the lungs with mucous which in turn was killing them by robbing the body of oxygen. However, younger people who have compromised lung capacity through smoking and vaping may be just as much at risk.

Regardless, it appeared President Trump telegraphed his awareness of Obama's involvement in creating the virus now causing the COVID-19 worldwide pandemic when he tweeted on 3/9/2020 that the Obama/Biden administration was the "most corrupt administration" in the history of the US. At the same time he is apparently trying to distance the US government's worldwide responsibility for the virus's release by calling it the "Chinese virus". Trump stated, "China was putting out information, which was false, that our military gave this to them." I would agree that it is very doubtful our military "gave" this bioweapon to the Chinese. Well, at least not the Trump administration military. Still, Trump is correct that it is China who released this pandemic upon the world, (regardless who created it).

There is another virus that has now been confirmed to have been created by the Obama Administration. This one was indeed designed as a military weapon. However, instead of being a biological virus, it was a computer virus called Stuxnet. What similarities can we find? We find that it was designed with at least triple redundancy in terms of infecting its host. Of course triple redundancy isn't new as it was used since the early days of the Apollo space program. It greatly increased one's chances of accomplishing one mission should something, even two somethings, fail.

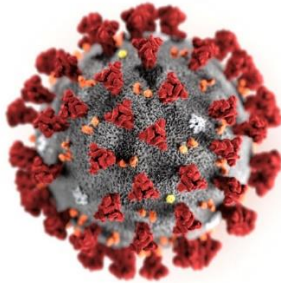

With Stuxnet, there were at least three zero day exploits built into the code. What that means is the virus could take advantage of at least three different ways to take control of its host through the operating system (OS). Each time a vulnerability is found in an OS or program, antivirus programs can be given updates that allow them to recognize and remove the virus much like white blood cells in the body seek out and surround pathogens. Or the OS or program itself can receive patches to remove the vulnerability.

The first day a new vulnerability is recognized in the wild the race is on to develop a cure. The day before it is discovered is day zero. A computer virus previously might take advantage of one unpatched vulnerability. But to take advantage of at least three simultaneously means the virus is probably military grade and designed for a high probability of infecting its host.

Does the Bible warn us of a time when there will be a pathogen that kills using not one plague, not two plagues, but three plagues? Yes! It even warns that one third of humanity will be killed. If one third of humanity is indeed killed by COVID-19, would not the world be justified in labeling the man responsible for the development of COVID-19 an antichrist if not THE antichrist?

One third of humanity was killed by these three plagues, by the fire and smoke and sulfur streaming out of their mouths. Revelation 9:18 FBV

Now, what does it mean by fire, smoke, and sulfur. Possibly this is referring to the colors shown in probably the most popular model of COVID-19 showing a sphere the color of smoke, many projections streaming out of this sphere the color of fire, and some projections the color of sulfur.

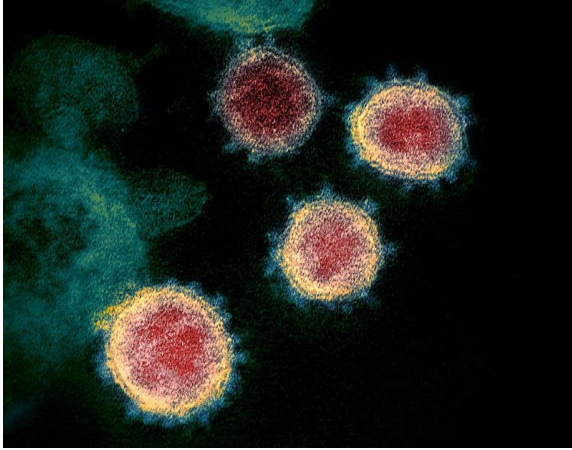

CDC/ Alissa Eckert, MS; Dan Higgins, MAMS

The Apocalypse of the Apostle John

The Apostle John saw the future as revealed to him by God.

This is the Revelation of Jesus Christ, which God gave him to show his servants what will happen soon. He sent his angel to reveal it to his servant John who confirmed everything he saw concerning the word of God and the testimony of Jesus Christ. Anyone who reads this is blessed, as are those who hear these prophetic words and pay attention to what's written, because the time is near. Revelation 1:1-3 FBV

He warned of a devastating plague, actually three plagues at the same time, which would kill many people, a literal pandemic. He may have been shown these invaders being carried into people through his vision of the future with images from the future like the one above and the one below. How would one convert a complex vision into words to describe something no one up to that time had seen before? How would you describe these invaders?

By NIAID Rocky Mountain Laboratories (RML), U.S. NIH - <https://www.niaid.nih.gov/news-events/novel-coronavirus-sarscov2-images>, Public Domain, <https://commons.wikimedia.org/w/index.php?curid=87089605>

In my vision I saw the horses and their riders who wore breastplates as red as fire, and dark blue and yellow. The heads of the horses looked like lions, and fire and smoke and sulfur streamed out of their mouths.

Revelation 9:17 FBV

Would you describe these spherical invaders as horses carrying riders wearing breastplates the color of red, dark blue, and yellow? It seems like the colors are streaming away from each sphere which looks uncannily like a wide open mouth.

We also know a horse's head looks nothing like a lion's head. A lion's head is round with a shaggy mane around it. Can you see a shaggy mane around each of these viruses? In fact, it is in describing this "shaggy mane" around the coronavirus that it got its name. A "corona" is also used to describe the shaggy edge around the sun. It literally means "crown", as in the type of "crown" with protruding points. These points on the coronavirus, like a crown of thorns, are used to pierce cell walls and then inject biological genetic code to allow them to reproduce. These points are like mouths but instead of eating, they vomit out or stream out their genomes. Or put another way, like the mouths of snakes with fangs or the tails of scorpions with stingers, enabling them to inject their deadly venomous RNA.

The horses' power was in their tails as well as their mouths, for their tails were like snakes' heads that they used to hurt people. Revelation 9:19
FBV

So how many of these microscopic deadly invaders would it take to hurt people? We know that if someone coughs on you who has COVID-19, you could be in big trouble. One cough in your face can give you the disease. A better question is exactly how many of these microscopic invaders are in a cough?

Quoting from, "*The Gross Science of a Cough and a Sneeze*", By Jason Socrates Bardi, June 14, 2009. <https://www.livescience.com/3686-gross-science-cough-sneeze.html>

*"If a person is sick, the droplets in a single cough may contain as many as **two hundred million individual virus particles.**"*

Two hundred million individual virus particles. Wow!

How many does the Bible state?

I was told the number of the army of soldiers on horseback: it was 200 million. Revelation 9:16 FBV

Two hundred million. What an exact fulfillment of prophecy!

Now there are those who may doubt anyone could envision, let alone carry out such a creation which could go so terribly wrong given the risks.

Star Trek, Season 1, Episode 8, called "Miri". This was about a planet virtually identical to Earth. Except the inhabitants had developed a virus that greatly increased longevity. Children had their childhood extended by hundreds of years. Unfortunately it had the side effect of killing off all adults. Once a child reached puberty, they would start going wild and then die off quickly. When part of the crew of the Enterprise beamed down, they quickly started developing lesions of the same disease. Miri, who is just now reaching puberty, likes Captain Kirk. With only 7 days left to live, McCoy is barely able to develop a vaccine before the beamed down crew of the Enterprise dies. Kirk said at the end: "You know, Miri, Because of the virus, all of you are really hundreds of years old. I never did like older women."

So the first angel went and poured out his bowl on the earth, and terrible, painful sores broke out on those who had the mark of the beast and who worshiped his image. Revelation 16:2 FBV

Stargate SG-1, Season 4, Episode 16, was called "2010". It is the 10 year anniversary of an alliance Earth has made with the Aschen Confederation. With their vaccine technology, Earth has been transformed into a paradise of long life and perfect health. Unfortunately the vaccine has also caused infertility which is being hidden from humanity. Aschen is taking the long road to exterminate the inhabitants of Earth. Only by the SG-1 team being able to send a note back in time to not initially go to the Aschen planet is humanity saved.

There will be those who will always mistrust any vaccine. What if it contains strands of Nephilim DNA? Will that negate ones salvation?

Of course, if the punishment for not taking the vaccine or any vaccine is a banishment from being able to buy and sell then regardless of the consequence imposed by society one should certainly not take the vaccine.

He made everyone, whether weak or powerful, rich or poor, free or slave, receive a mark on their right hand or on their foreheads. Nobody was permitted to buy or sell except those who had the mark, which was the name of the beast or the number of his name. Revelation 13:16-17 FBV

I have heard of those who ask, "How could God allow this pandemic to happen to the world?" Where is the hand of God protecting us? Has he washed his hands now and left the world to let it fail of its own devices during these final days before the return of the Son of God? How much

longer before the Rapture saves the born again from what will soon envelop the Earth? How bad exactly are the beginning of sorrows?

Merry Impeachmas

Another coincidence with this pandemic is another event which also began in December 2019, Impeachmas. Was the timing coincidental or are there no coincidences with God? Are we seeing divine retribution because of those who stood against the person God put in charge of the United States for such a time as this, the person men of God have publicly prayed for, laid hands on, and anointed? Who is it that would stand against God's anointed?

Sean Hannity has detailed the very interesting timeline between the impeachment events and the COVID-19 events. Draw your own conclusions.

Through the use of many false witnesses, witnesses who presented hear-say evidence which would not be admissible in any court of law in the United States, "expert" witnesses who gave their "progressive" opinion on the constitution, witnesses which were not allowed to be cross examined by the defense, witnesses for the President which were not allowed to be called, the President of the United States was impeached. Actual removal from office of Trump with the required 2/3rds vote in the Senate was always considered an unreasonable outcome with Republicans holding the Senate. The only goal appeared to be to damage the image of the Trump / Pence ticket in the hopes they would lose reelection in 11 months. The Democrat controlled House of Representatives blatantly interfering with the next election.

Still, many that dwell upon the earth could not contain their glee, their rejoicing, their making merry, when President Donald J. Trump was impeached on 12/18/2019. Because this event occurred one week before Christmas, in "celebration" they called it "Impeachmas". This was their kind of Christmas gift. This "gift" put them in good spirits in this season of giving, to now give "Impeachmas" gifts to each other. The credibility, influence, and possibly even presidency of their tormenter was finally dead. Although it was reported some thought mistakenly that impeachment ended the Trump / Pence presidency.

Now one of the expert witnesses called by the House stated that the President wasn't impeached until the articles of impeachment were sent to the Senate. The House voted to do just that on January 15th and on the same day delivered those articles to the Senate.

So Christmas as commonly celebrated in the US occurred 7 days past 12/18/2019 on 12/25/2019. It is also a tradition to celebrate the 12 days of Christmas starting 12/25/2019 with a gift on the first day, two on the second, and so forth. That would make the last day of Christmas on January 5, 2020. The articles of impeachment were voted on and delivered 10 days later.

There is a verse in Revelation that many have speculated will be fulfilled at Christmas time because they celebrate two witnesses being dead by sending gifts to one another.

*The inhabitants of the earth are delighted they are dead, and celebrate, sending gifts to each other, because these two prophets had been a torment to them. **Revelation 11:10 FBV***

The identity and symbolism of the two prophets is lost on many. However, I think we all can agree that Trump has been a torment, a thorn in the side, a supreme aggravation to those calling themselves progressives, including the liberal media and the liberal movie industry. For that matter, Pence just being vice-president with his born-again Christian views has also infuriated the left. Or would we be more accurate in saying the Spirit of God and the Word of God working through Trump and Pence have been a torment to much of the inhabitants of the Earth?

Now I know that some may jump to the conclusion that Trump and Pence must be the two witnesses. However, I don't see any biblical basis to draw that conclusion. Nor do I see any biblical basis to say any human being descended from Adam with Adam's inherited sin nature is either of the two witnesses. The Spirit of God (Holy Ghost) and the Word of God (incarnated as Jesus Christ) are the two witnesses to all of the Father's creation. Read Zechariah.

They are the two olive trees and the two candlesticks that stand in front of the Lord of the earth. Revelation 11:4

"They" witnessed His creation extends from the first act of creation in Genesis 1:1 to everything that has befallen His creation since, through the Word of God becoming flesh and dwelling among us. His death on the cross and His resurrection. And all the way up to the present with Trump and Pence at the head of the US government. Why has it taken till they were the head for the US to recognize Jerusalem as the everlasting capital of Israel?

Bob Ware had an amazing post on January 12, 2020 titled, ""Sum of the title case ASCII codes for 'Donald Trump Mike Pence Last Day' = 2701 gematria of Genesis 1:1"

<http://www.fivedoves.com/letters/jan2020/bobware112-1.htm>

Now the last day of the Trump / Pence presidency could be one interpretation and adding 2701 days is 7.4 yrs, almost 8 yrs, as in two terms. However, another is that we are in the last days. In particular we are in the last day, the seventh day, or eon (yeom) before the eighth day starting eternity. This particular 2701 emphasizing connecting Genesis 1:1 with current events in Revelation.

I will give my two witnesses power, and they will prophesy 1,260 days, dressed in sackcloth. Revelation 11:3 FBV

Can we use this day count with events in the Trump presidency? From July 16, 2016 when Trump announced he had picked Pence as his running mate to December 28, 2019 there were 1,260 days. From July 19, 2016 when Trump was elected as the Republican candidate for President to December 31, 2019 there were 1,260 days. Both events fall within the 12 days of Christmas. Both events fall within when the House voted to impeach Trump and the House then voted to deliver those articles of impeachment to the Senate.

From November 8, 2016 when Trump was elected as President by the American people to April 21, 2020 will be 1,260 days. From December 19, 2016 when Trump was elected as President by the Electoral College to June 1, 2020 will be 1,260 days. And finally, from January 20, 2017 when Trump was inaugurated to take his first day in office as the POTUS to July 3, 2020 will be 1,260 days.

Will there be a more dramatic fulfillment of the two witnesses being killed on one of these three days to leave no doubt? Will there be a more dramatic fulfillment of them being resurrected three days later and leaving earth, those two restrainers of evil? With those born again believers follow them in the air, first those who are now asleep and then those of us who are alive? Will this leave the earth to the evil one?

For the secret ways of lawlessness are already at work; however he who now restrains it will continue to do so until he is out of the way. 2

Thessalonians 2:7

There is a puzzle regarding the generation that doesn't pass away who will see these things. A generation from the birth of the first till the birth of the next generation is around 20 years. Three of these generations or 60 years can be taken as an average lifespan. Although it has varied considerably throughout the centuries and from region to region. However, the maximum life span has stayed rather constant at around twice this or 120 years.

Now, from the first believed victim of HIV in 1959 to the first believed victim of COVID-19 in December 2019 is 60 years, the general time for a generation to pass away. There are now people throughout the world believing they are going to die from COVID-19. They know alcohol kills the coronavirus which has skyrocketed alcohol hand sanitizer prices to as much as \$100. Some, in their attempt to kill the virus, have overdosed on alcohol and killed themselves. Below is an article of 44 who died in Iran through in this manner.

<https://www.dailymail.co.uk/news/article-8095633/Coronavirus-44-people-die-alcohol-poisoning-trying-ward-coronavirus.html>

With that, let me end with various verses from a 1971 song by Don McLean called American Pie. The single hit No. 1 in the US for four weeks in 1972. It is usually considered an ode to Buddy Holly who also died in 1959 as did the first HIV victim.

But can it also be prophetic and speak to the "generation lost in space" that began in 1959 and ends 60 years later starting in 2019 with COVID-19? Does it speak of self-isolation and self-quarantine with "we were all in one place"? Does it speak of churches closing for fear of spreading the coronavirus, no longer announcing church service with, "The church bells all were broken".

Every day now seems to set a new record for the number who have died from COVID-19. Does the end of 2019 begin "the day that I die"? Are we saying bye-bye to America? Is the day of this song now upon us, "the day the music died"?

*So bye-bye, Miss American Pie
Drove my Chevy to the levee, but the levee was dry
And them good old boys were drinkin' whiskey and rye
Singin' "This'll be the day that I die
This'll be the day that I die"*

*Did you write the book of love?
And do you have faith in God above?
If the Bible tells you so*

*Oh, and there we were all in one place
A generation lost in space
With no time left to start again
So come on, Jack be nimble, Jack be quick
Jack Flash sat on a candlestick
'Cause fire is the devil's only friend*

*Oh, and as I watched him on the stage
My hands were clenched in fists of rage
No angel born in Hell
Could break that Satan's spell*

*And as the flames climbed high into the night
To light the sacrificial rite
I saw Satan laughing with delight
The day the music died*

*And in the streets, the children screamed
The lovers cried and the poets dreamed
But not a word was spoken
The church bells all were broken*

*And the three men I admire most
The Father, Son and the Holy Ghost
They caught the last train for the coast
The day the music died*

Ted Porter
