

DAVID FLYNN'S THEORY

If you aren't familiar with David Flynn's line of research, then this may not be an easy read. I'd highly recommend reading his book *Temple at the Center of Time*, and this is coming from someone who was kicked off his forum for opposing the doctrine of "Once Saved, Always Saved." The bottom line is that he sees evidence from his research that 2012 – 2019 is the 70th Week of Daniel, or The 7 Year Tribulation. I believe he is a mid-tribber, but his study still shows the possibility of 2012 being the beginning of the Week (The Rapture), 2016 being the middle (The Great Tribulation), & 2019 being the end of the Week (Second Coming).

MEASURING THE TEMPLE

2016 RESEARCH

That the Temple Mount exists at the time and space center point of the earth is based on the interpretation that our era (the year of our Lord AD) and the temple location are anchored to Jesus Christ. This has been demonstrated in my book and posts over the years. Recently I've been asked if there are any definite measurements from the temple that point out the year or years of the last week of Daniel, beyond the work on 2012 nautical miles equaling 33 degrees 33 minutes.

Besides the Scripture's indications of the continuous holiness of the Temple Mount, the answer is found in the actual dimensions of the site and the Revelation of John.

"This is the law of the temple: The whole area surrounding the mountaintop is most holy. Behold, this is the law of the temple."
Eze 43:12

In Revelation 11.1, John is told to measure:

"And there was given me a reed like unto a rod: and the angel stood, saying, Rise, and measure the temple (Naus) of God, and the altar, and them that worship therein."

Absent from this prophecy are the actual measurements. Might it be that this lack of measurement exists to compel the readers to search this mystery out for themselves within the text?

If we take the Chapter and verse of Revelation 11.1 as one number "111" there is a connection with the temple in gematria throughout the bible.

111 = House OIKIA in Greek, a word often used for the temple, Mat 21:13 in Jesus' words for example.

111 = "And the Glory of the LORD abode" (Ord) [Ex 24.16]

111 = "out of His Temple" [2Sa 22:7]

111 = measure [Gen 18:6]

however, by adding the "ones" in Chapter and verse of Revelation 11.1 a more concise number and word appear.

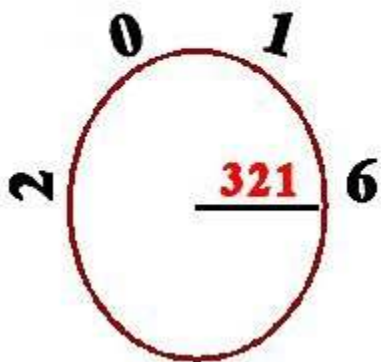

Chapter and verse 1 + 1 + 1 " equals "3". The Chapter "1 + 1 equals "2" and the verse is "1"... (321).

"321" equals the Greek word for "Naus", the inner sanctuary only and not the entire Temple. This is the word used in Rev. 11.1 , translated "temple" in English.

The "Naus" being "the Sanctuary containing the Holy place and the Holy of Holies" has always stood on the threshing circle of Ornan the Jebusite (2Ch 3:1). A threshing circle looks like this:

Notice the configuration. The oxen form the radius of the circle. If the number of the word for the holy place "Naus" 321 is considered a radius...

$$\pi \times 321^2 = 2,016$$

This finding is even more remarkable when we measure the actual perimeter of the raised platform in Temple Mount:

John is told further:

"Rev 11:2 But the court which is without the temple leave out, and measure it not; for it is given unto the Gentiles: and the holy city shall they tread under foot forty and two months."

Though the text is clear enough, there is another "time based" equation in Rev. 11.2. The angel mentions 42 months or 1,260 days that the gentiles trample this area. Though the outer court of Solomon's Temple was a rectangle, the future outer court of Ezekiel's temple is a square.

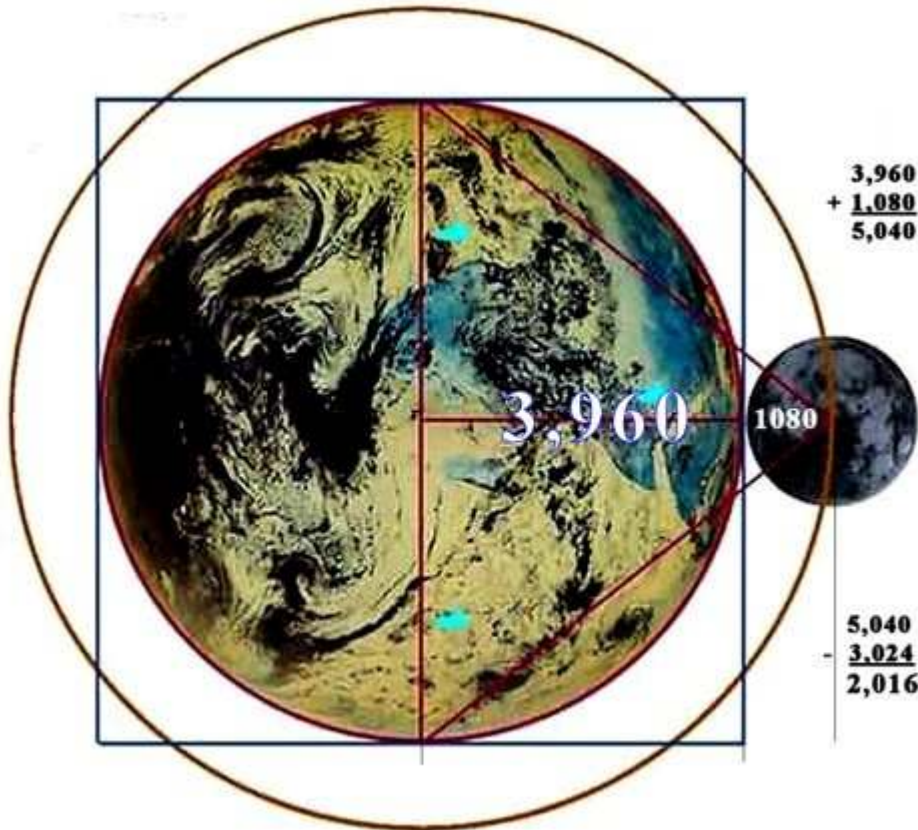

Eze 43:10 Thou son of man, shew the house to the house of Israel, that they may be ashamed of their iniquities: and let them measure the pattern.

If one may be so bold as to "measure" a square whose side is 1,260 feet we find the perimeter is 5,040 feet. These measurements are time-based extrapolations from the text itself and are obviously not found in Ezekiel.

The Temple Mount is 5040 feet.

The distance 5,040 sm is the combined radii of the moon and earth. This proportion is demonstrated by the Great Pyramid:

If the number 5,040 is subtracted by the actual perimeter of the Great Pyramid, "3,024 ft." the remainder is 2016.

The significance of this finding is compounded by the fact that the Great Pyramid's total height with capstone is 5776 inches, the Jewish calendar year for 2016 AD is 5776 AM.

The Jewish year 5776 is found in several pertinent "prophetically" gematria equations - that I add here for your consideration:

Dan 12:11 *And from the time that the daily sacrifice shall be taken away, and the abomination that maketh desolate set up, there shall be a thousand two hundred and ninety days.*

Total number of this passage $4486 + 1290 = 5776$

Mat 24:34 *Verily I say unto you, This generation shall not pass, till all these things be fulfilled.*

Total = 5846

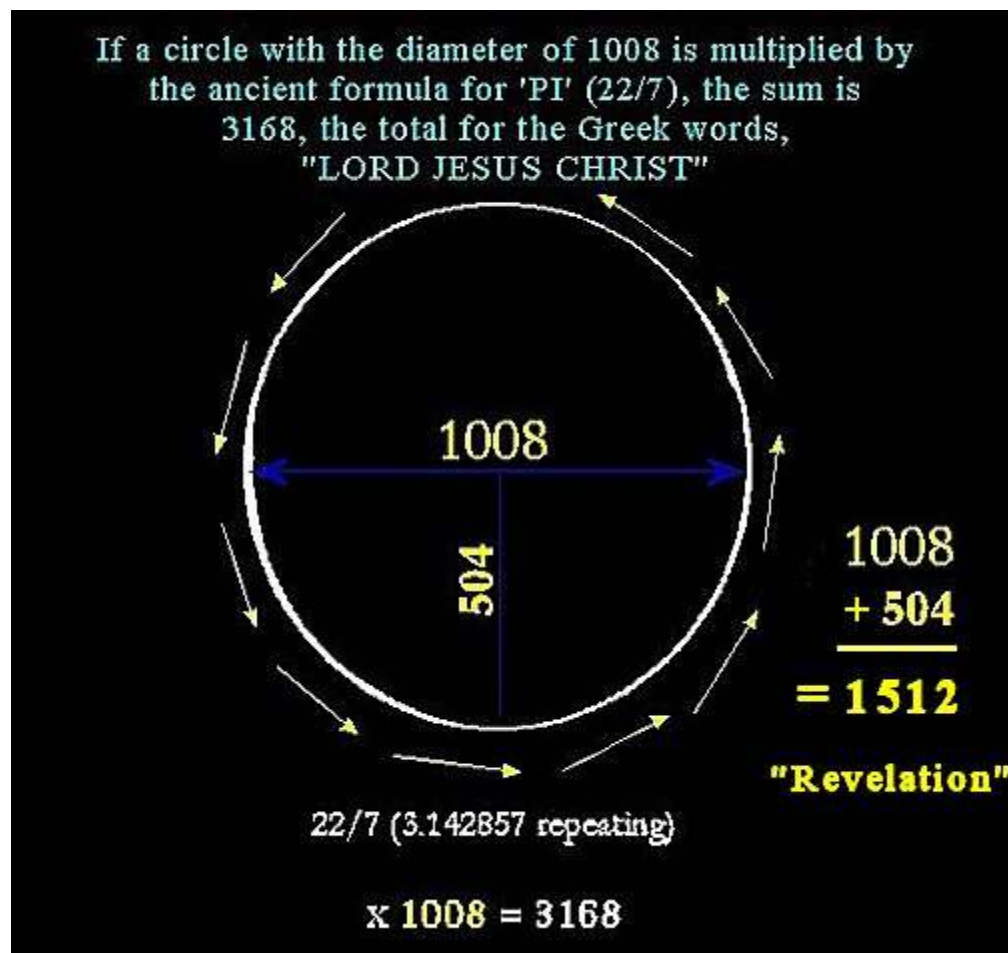

If a generation in the bible is 70 then, $5846 - 70 = 5776$

Revisiting the distances from the Temple to the locations of the "mirror prophets" according to Isaac Newton, due to their end-time themes connected to the Temple, we see a combined distance of 1,008 nautical miles.

Distance from Patmos of Revelation &
Babylon of Daniel to Temple mount:
1008 nautical miles (504 + 504)

By rendering this distance graphically in a circle we discover the gematria for " the Revelation of Lord Jesus Christ". This is exactly what Daniel and John were given in their prophecies of the End of Days:

The combined value of the Hebrew letters of Isa 46:10 divided by PI equal value of Revelation (1512):

Declaring the end from the beginning, and from ancient times the things that are not yet done, saying, My counsel shall stand, and I will do all my pleasure: total count, 4752

PI (22/7) x 1512 "revelation" = *exactly* 4,752

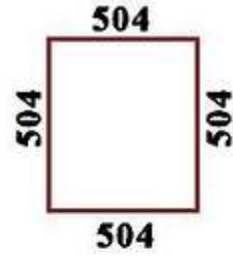

The combined distance of "mirror prophets" Daniel and John.

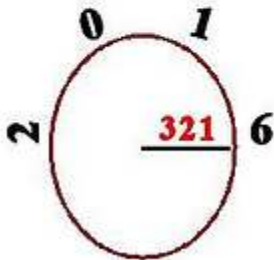

1008
Armageddon

1512
Revelation

2016

**A circle with a radius of 321
has the circumference 2016.**

So the year 2016 stands out in high relief, but so also does the year 2012.

The gematria count of the Greek phrase "Fallen, is fallen Babylon the Great"

Rev 14:8 And there followed another angel, saying, Babylon is fallen, is fallen, that great city, because she made all nations drink of the wine of the wrath of her fornication.

But what of the end of the seven years? Check out the gematria of the number 2020. It is one of the most powerful statements of the rule of Jesus Christ at the end of this age.

Hebrew	על דברתי מלכי־צדק	1010
Greek	κατα την ταξιν Μελχισεδεκ	2020

The endless life and abiding (= 110, index of [Psalm 110](#)) priesthood attributed to Melchizedek are perfect manifestations of the essence of Nun ([Perpetuity](#)) which governs Spoke 14 where the Book of Hebrews resides. It originates in the Inner Cycle of Genesis (cf. [Genesis 14](#)).

The Jewish year 5780 AM starts on September 30, 2019 and ends in Sept 2020.
 5780 - 7 = 5773

The Jewish Year 5773 begins September 17 (Tishri 1) in 2012.

Based on the numbers, it looks more and more clear that the time between the end of 2012 and the beginning of 2020 encompasses the last week of Daniel.

...but what say you?
