

The BIG Event

The main event (Ressurrection/Rapture)

The Criteria – edited (changed to Full moon)

There is only one day left that meets the criteria for the ressurecton/rapture. Why is that? Because arriving at 1335 comes first, then the "immediatly after" part can happen, AND it must be a **Full moon**. See more, about why this is, below.

The events that need to happen, and in that order:

1. Event 1 – Arrive at the day/year

1st new moon at the end of day/year 1335 (March 21-22, 2023)

(Dan 12:12) Blessed is he that waiteth, and cometh to the thousand three hundred and five and thirty days. **see link below for the calulation*

2. Event 2 – Followed by the next Full moon

2nd **Full moon** after day/year 1335 (May 5-6, 2023)

(Mat 24:29)

Immediately after the tribulation of those days (**After** arriving at 1335, 1st New moon)

shall the sun be darkened, (by the brightness of His appearance)

and the moon shall not give her light, (2nd **Full moon** **After** arriving)

and the stars shall fall from heaven, (by the brightness of His appearance)

and the powers of the heavens shall be shaken: (The power of light overshadowed by His mighty power)

3. Event 3 - Four watches

In the night time: (sunset to sunrise)

evening (sunset to 9pm)

midnight (9pm to 12am)

cock-crowing (12am to 3am)

morning (3am to sunrise)

4. Event 4 - The SIGN to watch for

The brightness of His comming, (like a thousand suns)

(Mat 24:29)...and the stars shall fall from heaven, (by the brightness of his appearance) and the powers of the heavens shall be shaken: (The power of light)

Details of this scenerio:

From the six day war that ended on June 10, 1967, calculate back 42 months of years, AND a second witness, back 3 1/2 days of years – same result – March 21, 688 AD. With that start date, going forward 1335 day/years = March 21, 2023. ie arrive at 1st new moon of that day/year.

*The calulation: <https://www.fivedoves.com/letters/feb2023/edp219-2.htm>

So, going back from the six-day war in 1967 you get the 688 AD exact date.

Last day of six day war		Range	AD date	AD answer going back	Exact day
<u>10TH JUNE</u>	42 x30.4583 =	1279.2226	1967.443	688.220	03/21/688

Then, "immediatly after" arriving, the 2nd Full moon occurs.
The location of the start of the harvest can begin where it's dark,
ie after sunset followed by four watches as described above. On
May 5th the first watch starts at time zone +1
as show below: (The Full moon for +1 is 7:34 pm)

1	2	3	4	5	6	7	8	9	10	11	12	-11
p	p	p	p	p	p	A	A	A	A	A	A	A
7	8	9	10	11	12	1	2	3	4	5	6	7
1st watch			2 nd watch			3 rd watch			4 th watch			
Evening			Midnight			Cock-crowing			Morning			

Finally, look for the sign of the brightness of His appearing. That particular watch will arrive at all time zones during the 24-hour duraton of the Full moon. May 5-6, 2023

Look for the bright light on the horizon. Mat 24:30 And then shall appear the sign of the Son of man in heaven: and then shall all the tribes of the earth mourn, and they shall see the Son of man coming in the clouds of heaven with power and great glory.
