

AMERICA'S FINAL WAKEUP CALL

March 8, 2013

Dear John Tng and all Faithful and Beloved Doves,

Subj: How Can a Huge Country Like America be Destroyed in 1-Hour—Read: The Great Abyss—An Entire Continent Burning—Already Augmented!

It is truly too horrifying to even contemplate, imagine or write about the outcome of what now seems to be the imminent fate of our beloved country, America the Beautiful. How could this have happened right under our noses and no one connected the dots? We are sitting nation-wide atop the greatest FAE (Fuel/Air Explosive) Bomb(s) imaginable. You owe it to yourself and loved ones to discover this fact before it is too late to evacuate to safety. **Exhibit A of things gone terribly wrong in the USA today is Sinkhole Bayou Corne in Louisiana's 'ASSUMPTION PARISH'! It is a Methane Gas and Oil Disaster+++ just waiting to happen!**

Read my post from May 27, 2011; and, notice that this time I have added two links that describe in terms that everyone can understand, exactly what is required to turn the massive Methane Gas Reserves under the entire Continent of America into a series of massive Fuel/Air Explosions. Our southern Gulf Marshes are in huge trouble! Jer 51:32...the river crossings seized, **THE MARSHES SET ON FIRE**...

For vapor cloud explosion there is **A MINIMUM RATIO OF FUEL VAPOR TO AIR BELOW, AT WHICH IGNITION WILL NOT OCCUR.**

Alternately, there is also a maximum ratio of fuel vapor to air, at which ignition will not occur. These limits are termed the lower and upper explosive limits. For gasoline vapor, the explosive range is from 1.3 to 6.0% vapor to air, **AND FOR METHANE THIS RANGE IS 5 TO 15%.** Many parameters contribute to the potential damage from a vapor cloud explosion, including the mass and type of material released, the strength of ignition source, the nature of the release event (e.g., turbulent jet release), and turbulence induced in the cloud—[Harvey Troyer Note: As in Giant Mushroom Clouds?] (e.g., from ambient obstructions).

Fuel/air explosives represent the military application of the vapor cloud explosions and DUST EXPLOSIONS ACCIDENTS that have long bedeviled a variety of industries.

Accidental vapor cloud explosion hazards are of great concern to the refining and chemical processing industry, and a number of catastrophic explosion accidents have had significant consequences in terms of injury, property damage, business interruption, loss of goodwill, and environmental impact.

WHEN THE DUST [Almighty God says that Humans are made of the dust—HT] GETS IN WITH THE RIGHT MIXTURE OF OXYGEN and comes in contact with a spark or even an overheated bearing on a conveyer belt, it is extremely explosive. And every year, many serious explosions and fires occur in industrial plants as a result of dust. MANY MATERIALS FORM DUST CLOUDS that can easily ignite and explode, injuring personnel and damaging plant.

How Does a Thermobaric Bomb Work?—[Click on this URL LINK.](http://news.softpedia.com/news/How-Does-a-Thermobaric-Bomb-Work58352.shtml)

<http://news.softpedia.com/news/How-Does-a-Thermobaric-Bomb-Work58352.shtml>

A thermobaric bomb is an unusual type of explosive, that doesn't incorporate oxygen molecules, thus requiring atmospheric oxygen. Sometimes called fuel-air explosives, the name comes from Greek and literally means "heat" and "pressure".

The most interesting thing about this bomb is the fact that it actually produces two blasts, THE FIRST being the dispersion of a cloud of liquid or powder explosive using a small detonating charge, and then the main explosion, when A SECOND charge ignites the cloud, producing the actual deflagration. The advantage of this bomb is the fact that it combines the power of both forces, intense heat and huge pressure, to destroy even the most inaccessible targets. It's really not more than a mixture of a monopropellant fuel explosive and A HIGHLY ENERGETIC MATERIAL [catalyst—HT], LIKE POWDERED ALUMINUM.

A key ingredients of Chemtrail Sprays includes Aluminum and Barium [Bury Um?—HT] particles; [HT—GET IT?]

It turns out that America's Skies have been, and still are, being sprayed and blasted with Chemtrail Clouds from Coast to Coast, especially over cities and high population areas. This has happened in America on a quite regular basis, since the middle and late 1990's to the present time!

Was the Whole North American Continent Specifically Created by God and Designed to Burn with Unquenchable Fire since before the foundation of the Earth?

A Prophecy about End-time Babylon (America)

REVELATION 18:6-7 (NIV) ⁶Give back to her as she has given; pay her back double for what she has done. Mix her a double portion from her own cup. ⁷Give her as much torture and grief as

the glory and luxury she gave herself. In her heart she boasts, I sit as queen; I am not a widow, and I will never mourn. Rev 18: 10, 17 and 18 proclaim three times that Babylon's doom comes swiftly, even in one hour; those watching are thoroughly terrified!

Don McLean - American Pie Lyrics

Artist: Don McLean Lyrics

Imagine Lucifer as the Chief Musician of Heaven in Eons Past.

A long long time ago
I can still remember how
That music used to make me smile
And I knew if I had my chance
That I could make those people dance
And maybe they'd be happy for a while
BUT FEBRUARY made me shiver
With every paper I'd deliver
Bad news on the doorstep
I couldn't take one more step
I can't remember if I cried

When I read about HIS WIDOWED BRIDE

But something touched me deep inside

****The day the music died****

So

[Chorus]

Bye, bye Miss American Pie

Drove my Chevy to the levee but the levee was dry

Them good ole boys were drinking whiskey in Rye

Singin' this'll be the day that I die

This'll be the day that I die

Did you write the book of love

And do you have faith in God above

If the Bible tells you so?

NOW do you believe in rock and roll?

Can music save your mortal soul?

And can you teach me how to dance real slow?

Well, I know that you're in love with him

Cause I saw you dancin' in the gym

You both kicked off your shoes

Man, I dig those rhythm and blues

I was a lonely teenage broncin' buck

With a pink carnation and a pickup truck

But I knew I was out of luck

The day the music died

I started singin'

[Chorus]

Now, for ten years we've been on our own
And moss grows fat on a rolling stone
But, that's not how it used to be
When the jester sang for the king and queen
In a coat he borrowed from James Dean
And a voice that came from you and me
Oh and while THE KING was looking down
The jester stole his thorny crown
The courtroom was adjourned
No verdict was returned
And while Lenin read a book on Marx
The quartet practiced in the park
And we sang dirges in the dark
The day the music died
We were singin'

[Chorus]

Helter skelter in a summer swelter
The birds flew off with a fallout shelter
Eight miles high and falling fast
It landed foul on the grass
The players tried for a forward pass
With the jester on the sidelines in a cast
Now the half-time air was sweet perfume
While sergeants played a marching tune
We all got up to dance
Oh, but we never got the chance
Cause the players tried to take the field
The marching band [as in the Saints Marching to Zion—HT]
refused to yield
Do you recall what was revealed
The day the music died?

We started singin'

[Chorus]

Oh, and there we were all in one place
A generation lost in space
With no time left to start again
So come on Jack be nimble, Jack be quick
Jack Flash sat on a candlestick
Cause fire is the devil's only friend
And as I watched him on the stage
My hands were clenched in fists of rage
No angel born in Hell
Could break that Satan's spell
And as the flames climbed high into the night
To light the sacrificial rite
I saw Satan laughing with delight
The day the music died
He was singin'

[Chorus]

I met a girl who sang the blues
And I asked her for some happy news
But she just smiled and turned away
I went down to the sacred store
Where I'd heard the music years before
But the man there said the music wouldn't play
And in the streets the children screamed
The lovers cried, and the poets dreamed
But not a word was spoken
The church bells all were broken
And the three men I admire most-

the Father, Son, and the Holy Ghost-
They caught the last train for the coast

**The day the music died
And they were singing**

New Nuke Treaty? Not So Fast, Senators Say

Last week, President Barack Obama signed an agreement with Russian President Dmitry Medvedev that will pave the way for a new Strategic Arms Reduction Treaty. The current START expires at the end of this year, and the new “joint understanding” commits the United States and Russia to a serious reduction in strategic warheads and delivery vehicles.

There’s just one hitch: That whole advice-and-consent thing. *Congressional Quarterly’s* Josh Rogin reported this weekend that Senators may stand in the way of ratification, **meaning the Obama administration will have to press ahead with planned cuts to the nuclear arsenal without congressional approval.**

North Korea warns U.S. of preemptive nuclear strike

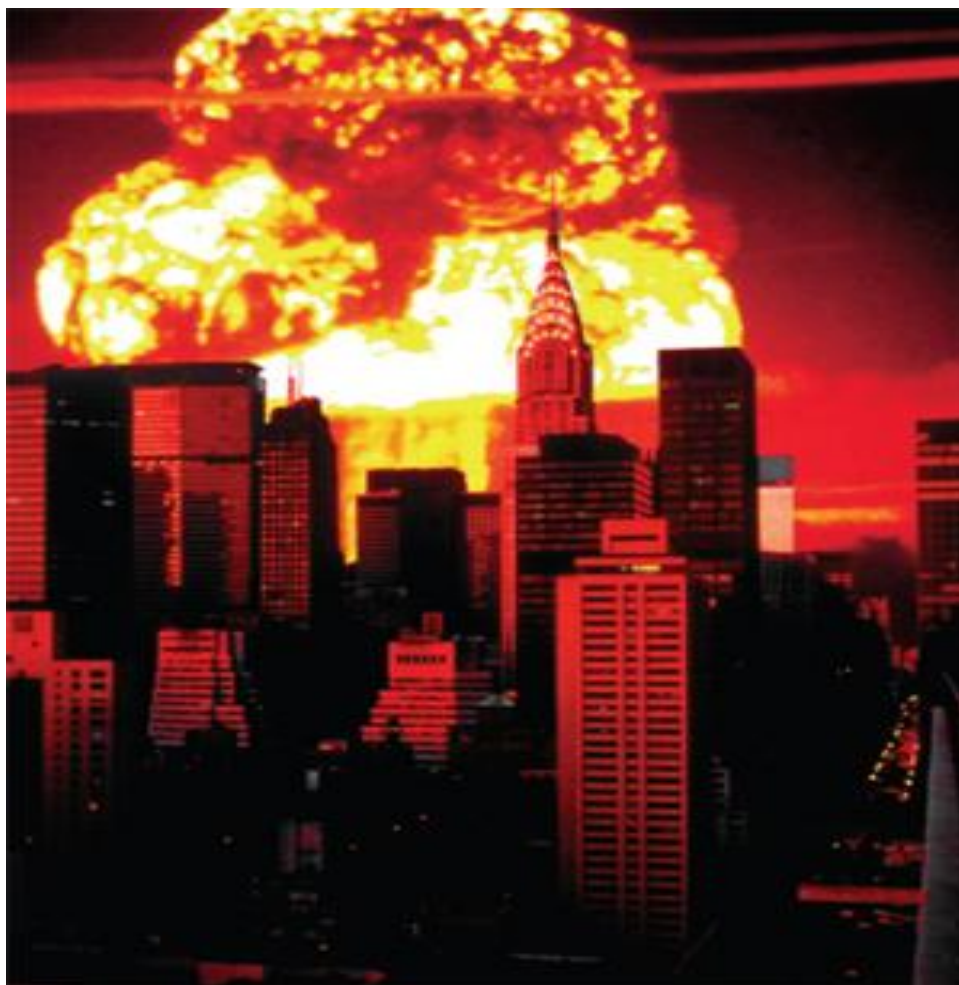

POSTED ON MARCH 7, 2013 BY THE EXTINCTION PROTOCOL

March 7, 2013 – NORTH KOREA - North Korea threatened the United States on Thursday with a preemptive nuclear strike, raising the level of rhetoric while the U.N. Security Council considers new sanctions against the reclusive country. The North’s unnamed foreign ministry spokesman also said it would be ENTITLED TO TAKE MILITARY ACTION AS OF MARCH 11, 2013 when U.S.-South Korea military drills move into a full-scale phase as it had declared the truce invalid.
